C

Operator Precedence and Associativity

The operators are shown in order of precedence, from highest to lowest.

Operator	Associativity
`::`	unary: left to right
	binary: right to left
`() [] -> .`	left to right
`++ -- + - ! ~ (type) * & sizeof`	right to left
`* / %`	left to right
`+ -`	left to right
`<< >>`	left to right
`< <= > >=`	left to right
`== !=`	left to right
`&`	left to right
`^`	left to right
`|`	left to right
`&&`	left to right
`||`	left to right
`?:`	right to left
`= += -= *= /= %= &= ^= |= <<= >>=`	right to left
`,`	left to right
